Total Vehicles over 30 mph as %	12.85%	14.41%	13.97%	13.90%	14.38%	14.35%	14.14%	14.62%

Notes

- 1) Vehicles counted is towards camera only. Now pointing outbound from the village. Signs turned on 23/02/26.
- 2) Total vehicles per day is an average calculated by dividing the total number by the number of days in the month.
- 3) Number of vehicles on any one day may exceed this average especially if there are hold ups on the A66 or A1M.
- 4) Fastest speeder - Moor Road 55mph on 04/07/2026 at 21:35pm.
- 4) Fastest speeder - East Road 40 mph on 03/07/2026 at 13:30pm.
- 4) Fastest speeder - Ladywell 60 mph on 10/07/2026 at 22:05pm.
- 5) Speeds - All 3 roads have high maximum speeds. 60 mph again on Ladywell at 22:05pm.
- 6) Volumes up in July on June by 35 vehicles per day split evenly between all 3 roads. Hopefully Highways fitted road counters will pick up these higher volumes.
- 7) Comparisons column shows data from 18 months of Inbound. Total volumes per day are less Outbound. % speeders total very similar.
- 8) Inbound and outbound volumes are now fairly similar. In reality if you add these 2 numbers together it gives a truer value of volume of vehicles moving through the village.
